RECEIVED

“On-the-job accidents / injuries are a business owner’s worst nightmare. They can affect a business owner, the person involved, other victims, as well as can be devastating to entire families.

“Sander Sanitation Service, Inc. has relied on the expertise that Insurance Specialty Group has provided us for approximately the past 3 years. We have found your knowledgeable, conscientious staff to be very efficient and capable in helping us to prepare the proper paperwork involved in filing for claims. If one of your staff members is uncertain of exactly how to handle these claims, they are willing to seek the answers and get back to us promptly.

“We have also found that regardless of filing for claims, your premiums have remained within reason and have been very competitive. We are extremely pleased with your pay-as-you-go option for purchasing Workman’s Comp insurance. This option makes our cash flow much more manageable enabling us to plan for premium payments on a bi-weekly basis. No end-of-the-year audits and not having to budget for funds to pay for any adjustments or pay large sums up-front for continuing coverage have helped tremendously. Thank you for providing this option.

“I am certain Sander Sanitation Service, Inc. will continue to patronize ISG for Workman’s Compensation insurance coverage in the future.”

A handwritten signature in cursive script, appearing to read "Timothy J. Sander".
